

30th
ANNIVERSARY
EDITION

A Foundation for Success

ANNUAL REPORT 2014

asrt

American Society of Radiologic Technologists
FOUNDATION®

Letter From the Board of Trustees Chairman

"I've made it." Those three short words represent a universe of experiences: when years of hard work combine with good fortune and, in that moment, you know you've arrived. Walking across a stage for your diploma, publishing your long-awaited paper, standing behind the microphone in a conference room full of eager attendees... all such moments capture not only achievement, but also the sense that you've become more of the person you set out to be.

2

Celebrating our 30th anniversary is such a moment for the ASRT Foundation. Volunteer and staff leadership knew what we wanted to become many years ago: a way to build dedicated support for our R.T. community. Every program we've created, partnership we've made and fundraising goal we've reached has strengthened our ability to support and empower R.T.s. It is truly moving to think how many "I've made it" moments we've helped make possible along the way.

Now we look forward to a new challenge: how to make sure we're able to be there for R.T.s every year, for the next 30 years. We call this effort *Positioning for a Brighter Tomorrow*— the Celebration Campaign for the ASRT Foundation. Through it, we will build our first ever operating endowment and work with donors to create scholarship and grant programs of their very own.

Thank you for being a part of what has led to this most amazing moment. I invite you to join me for the journey ahead.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven". The signature is fluid and cursive.

Steven J. Hardy, M.S., R.T.(R)(T)(CT), CMD
ASRT Foundation Chair

From Our Donors

Getting on the Wall

As soon as **Steven M. Herrmann, M.S., R.T., CRA, FASRT**, heard about the new state-of-the-art Donor Wall near the ASRT Museum and Archives, which opens in June of 2015, he wanted to be the first to pledge his support.

"ASRT has been such a huge part of my life and now I have the opportunity to be a part of honoring its history. The additional benefit is giving to a great cause: supporting the profession and ensuring the future of the ASRT Foundation at the same time. Feeling this connected to the ASRT story and giving back — well, there's something very gratifying and heartwarming about that."

Naming a Room

In addition to creating a scholarship, **Phil Ballinger, Ph.D., R.T.(R), FASRT**, has the distinguished honor of being the first ASRT member to name a room in the ASRT building: the Philip W. Ballinger Museum Library.

"For those who have made a profession in radiology, fed families, paid bills, bought toys and had an enjoyable career, it seems logical to give back to what made our lives possible. Stick your name and credentials on a wall ... that mark will last well beyond our lifetime and says 'I'm proud to be a part of the radiologic sciences.' Let's join Dr. Röntgen and others to leave our mark in the wet cement of life."

Creating a Program

Marie L. A. Racine, M.S.R.S., R.T.(R)(T), was the first therapist to establish a scholarship through the Campaign: the Marie L. A. Racine Scholarship Fund. She has never forgotten the impact of the scholarship she received as a student and others who pushed her to succeed.

"My mother was a school teacher, so she had a lot of influence on me and my siblings as far as our education. Even though we had limited funds this was always the driving force — that and giving through services. I've personally seen many of my students struggling financially as they were trying to reach their goals. That is why I'm starting this scholarship, to help deserving students who are in similar situations."

Leaving a Legacy

Becky Kruse, R.T.(R), understands not only the importance of the operating endowment, but also the need for funds to come in over time. That's why she's named the ASRT Foundation as a primary beneficiary in her will and made this her contribution to the Campaign.

"We, as a professional community, do a lot of good for our patients. It's important to be a part of something greater than oneself. I never got a scholarship from the Foundation. I never went for a research grant — I'm a terrible writer. But I'm so proud of my profession, and I feel pride in helping my profession grow and become better. That's why I give. I'm part of a greater whole."

Celebration Engagement Committee

Eileen Ahlswede, R.T.(R), FASRT, of Wisconsin
Shaun Caldwell, R.T.(R)(T), of Texas
Elaine Chin, R.T.(T), CMD, of California
Michael DelVecchio, R.T.(R), FASRT, of Massachusetts
Parsha Hobson, R.T.(R), of New Jersey
Amy Hofmann, R.T.(R)(CT), RDMS, CRA, of North Dakota
Stephanie Johnston, R.T.(R)(M)(BS), of Texas
Rebecca (Becky) Kruse, R.T.(R), of New Mexico
Eileen Maloney, R.T.(R)(M), FASRT, of New Jersey
William (Bill) May R.T.(R), FASRT, of Tennessee
Ann Obergfell, R.T.(R), of Indiana
Joan Parsons, R.T.(R), of Ohio

Vice Chair, Laura Aaron, Ph.D., R.T.(R)(M)(QM), of Louisiana
Jorge A. Casanas, M.Ed., R.T.(R)(CV)(QM), of Florida
Jennifer G. Chiu, M.B.A., R.T.(R), of New York
James Johnston, Ph.D., R.T.(R)(CV), of Texas
Dennis T. Leaver, R.T.(R)(T), FASRT, of Maine
Christina Truluck, Ph.D., R.T.(N), of New Jersey
Ester L. Verhovsek, Ed.D., R.T.(R)(M), of Tennessee
Ex officio, Kevin Powers, Ed.D., R.T.(R)(M), of ASRT staff
Board of Trustees Liaison, Nanci Wozniak, B.S., R.T.(N), of North Carolina

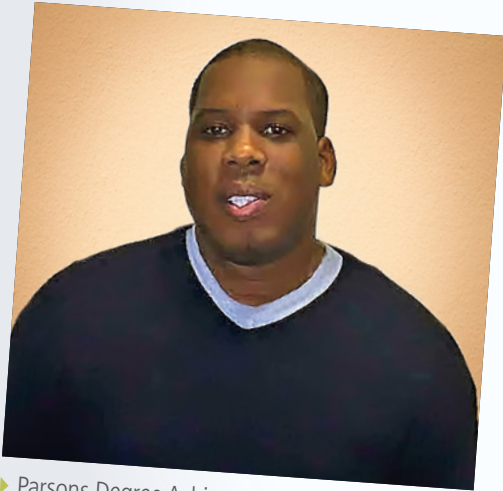

► Jerman-Cahoon Student Scholarship Recipient

— Michele Petrucelli of Bloomfield, New Jersey, earning an associate's degree in the radiologic sciences at Essex County College

“ My story truly begins in July 2009. I had put my children, then five and nine, down to sleep on hospital cots in a domestic violence homeless shelter. I went to the ladies shower room, knelt down, sobbed and prayed. Alone in this stall, my tears flowed. I asked out loud, ‘What now?’ The water was off, but a large drop of water fell on my head. I felt, as I looked up at the shower head, another large drop fall on my forehead. I laughed. My tears stopped. **I stood up and made the decision right there to never stop believing that success is achievable.** Thank you for recognizing that, sometimes, humility is difficult. You must understand what struggle is in order to be so generous. You must have gone through adversity to be so compassionate. You must have been hungry in order to nourish. Thank you for embracing your struggle and passing on the blessings you’ve received in order for me to continue your legacy. ”

Scholarships for Returning Students

► Parsons Degree Achievement Scholarship Recipient

— **Bradley Cornish** of Perris, California, a radiologic technologist at Diagnostic Laboratories and Radiology, earning a bachelor's degree at Adventist University

When I was deciding what career choice I wanted to pursue, I was into computers and technology. I then started to remember my journey with my tumor. I started to do research on medical imaging. Then — ah-ha! — radiology is the career I need to be in. It is mixed with technology and computers, and I have been a patient before. I thought it is my time to be on the other side of the medical field. Directly after graduation, I plan to work on a plan to achieve a master's degree. **I would like to be able to spread the knowledge that I learn to others in my profession.** I am truly blessed and I appreciate this award. I can't express how much this makes me feel. You have really brought tears to my eyes. It is great to be able to have a financial burden lifted. Being able to continue school is a wonderful feeling. Thank you so much for giving me the opportunity to reach new beginnings.

Parsons Degree Achievement Scholarship, \$2,000 each

Murad Albaneh of Michigan
 Krystal Angelroth of Wisconsin
 Craig Barnes of Maryland
 Bradley Cornish of California
 Frederick Severino of New York
 Janelle Geary of Pennsylvania
 Robert Guise of Michigan
 Stewart Hofmann of Wisconsin
 Patricia Johnson of Wisconsin
 Kayla Martens of Georgia
 Cindy Monroe of Florida
 Elizabeth Ruiz of Florida
 Lisa Sikorski of Michigan
 Daniel Schwartz of California
 Jaime Vance of Indiana
 Yanet Verde Horta of Connecticut

Professional Advancement Scholarship, \$2,000 each

Christopher Wertz of Texas
 Matthew Alyassin of Florida
 Nicole Bouchard of Massachusetts
 Lisa Christensen of Utah
 Lyndsey Cranor of Missouri
 Kelsey Johnson of Massachusetts
 Carrie Gilbert of Vermont
 Wanda Milliski of South Carolina
 Tara Moen of Minnesota
 Margaret Procasco of Pennsylvania
 Roman Rodriguez of Texas
 Kimberly Schram of Wisconsin
 Eric Sorensen of Florida
 Rachael Weber of Iowa

NEW! MEMBER SUPPORTED SCHOLARSHIPS

Philip W. Ballinger Endowed Scholarship

Thaddeus Morris of Missouri

Radiologic Sciences Educators Scholarship, \$5,000 each

Karen Eastham of Kentucky
 Kenneth Martinucci of New York
 Nadine Menser of Kentucky
 Theresa Roberts of Florida

Siemens Clinical Advancement Scholarship, \$5,000 each

Jolie Couch of Florida
 Danielle Guess of Indiana
 Lauren Williams of Massachusetts
 Matthew Younger of Missouri

Varian Radiation Therapy Advancement Scholarship, \$5,000 each

Marlene Asencio of New York
 Dale Brummer of Nebraska
 Paul Bjork of Colorado
 Jennifer Breen of New Jersey
 David Cork of Florida
 Lee Culp of New York
 Alisen Fitzpatrick of Wisconsin
 Kyle Jones of Florida
 Farhana Karim of New Jersey
 Hannah Keen of Texas
 Mark Pearsall of Oregon
 Matthew D. Powell of Idaho
 Alicia Schneckloth of Wisconsin
 Alexander Walter of Indiana
 Jackie Washington of Iowa
 Darcy Watson of Florida
 Kristy West of Pennsylvania
 Heather Whittaker of Florida
 Brigitte Weston of Texas

Community Outreach

► RAD-AID ASRT Foundation
Therapy Fellowship Recipient

— **Taeko Yoshizaki**,
M.P.H., CMD, R.T.(T), of
California, dosimetrist at
Radiation Oncology UCLA

“ This outreach opportunity was an incredible experience working with our colleagues at the General Hospital of Ningxia Medical University — a comprehensive tertiary hospital integrating clinical treatment, education, scientific research, examination and training in the city of Yinchuan. The experience made me realize that **we need to be more active in promoting continuous education to other R.T. professionals in remote locations across the world.** The China team was so appreciative of our support and eager to learn about the U.S. radiation therapy practices. I also learned a lot through their questions and practices. Although communication through the language barrier was challenging at times, it encouraged both parties to be patient and to make a greater effort to explain things in creative ways. When understanding was reached, it was extremely rewarding and made us feel much closer. We are grateful for the ASRT Foundation’s generous contribution, which made this outreach come true.

”

Community Outreach Fellows

Leigh Brooks, B.S., R.T.(R), CIIP, of North Carolina, outreach in Ghana
Angele Crites, RDMS, of Canada, outreach in Haiti
Rebecca Doherty, R.T.(R), RDMS, RVT, of Kansas, outreach in Haiti
Sara J. Ferge, R.T.(R), of Illinois, outreach in Malawi
Natasha Hadrych-Rosier, M.H.A., M.B.A., R.T.(R)(T), of ASRT staff, outreach in Senegal
Amy Hofmann, M.B.A., R.T.(R)(CT), RDMS, CRA, of North Dakota, outreach in Haiti
Cynthia Hoffmann, M.S.Ed., R.T.(R), RDMS, of Illinois, outreach in Jamaica
Terry M. Konn, Ph.D., R.T.(R), of New Jersey, outreach in Haiti
Olive Peart, M.S., R.T.(R)(M), of New York, outreach in India
Kevin Powers, Ed.D., R.T.(R)(M), of ASRT staff, outreach in Haiti
Linda Robertson-Hull, R.T.(R)(M), of Tennessee, outreach in India
Kaitlyn Ryan, R.T.(T), of New York, outreach in China
Debbra Soffer, R.T.(R), RDMS, RVT, RDCS, of Pennsylvania, outreach in Haiti
Monica Vazquez, R.T.(R)(M), of Pennsylvania, outreach in India
Janet Walker, R.T.(T), of Canada, outreach in China
Bettye G. Wilson, M.Ed., R.T.(R)(CT), RDMS, FASRT, of Alabama, outreach in Jamaica
Taeko Yoshizaki, M.P.H., CMD, R.T.(T), of California, outreach in China

“

I am an ultrasound tech and traveled to Malawi to help teach in the radiography school and also work with the hospital technologists through hands-on training. There are no ultrasound schools there, so the x-ray students are expected to learn and perform ultrasounds when they start to work at the hospitals. Malawi is one of the poorest countries in the world. You can imagine the state of the hospital, the scarcity of supplies. They don't always have power and sometimes they don't have running water in the facility. They use ancient equipment, plain film, darkrooms and processors. But, I found students who were so bright, hopeful and truly interested in learning. I was so impressed by the students and the hospital staff. They know their anatomy, pathology and they are willing to work hard. I enjoyed my trip to Lilongwe because **it allowed me to be part of something bigger than myself.** I was able to help others and there is no better feeling than that.

”

► RAD-AID ASRT Foundation
Technologist Fellowship Recipient

— **Sara J. Ferge,**
R.T.(R), works at the
Taylorville Memorial
Hospital in Illinois

THANK YOU TO THE 2014 COMMUNITY OUTREACH REVIEW COMMITTEE

- Chair,** Jonathan Mazal, M.S., R.R.A., R.T.(R)(MR), of Maryland
Vice Chair, Victoria Barnosky, M.H.A., R.T.(R)(CT)(QM), CRA, of Pennsylvania
Andrea Pogozeleski, M.P.H., R.T.(R)(CT)(MR), of New Jersey
Cherish Dow, B.A., R.T.(R)(M), of Washington
Sara B. Long, B.S., R.T.(R), of North Carolina
Shannon D. White, B.B.A., R.T.(T), of Ohio

Research Grants

Research Grant Awards

“The Role of Computed Tomography in Contributing to Breast Tissue Dose in Patients Undergoing Accelerated Partial Breast Irradiation” in the amount of \$2,802.88, to Timmerie Cohen, Ph.D., R.T.(R)(T), CMD, at Virginia Commonwealth University, along with Jeffrey Legg, Ph.D., R.T.(R)(CT)(QM).

“Effectiveness of Current Disinfection Practices on Medical Equipment in a Radiology Department” in the amount of \$10,000, to William L. Hubble, M.A., R.T.(R)(N)(CT), CNMT, at Saint Louis University Doisy College of Health Sciences, along with James Austin Turner, M.S., R.T.(MR), CNMT, PET; Rita M. Heuret, Ph.D., ASCP; and Mark Lauridsen, M.B.A., CNMT.

“Exploring Affordable Innovation to Stimulate Higher Order Learning in Radiation Therapy” in the amount of \$9,900, to Ronnie G. Lozano, Ph.D., R.T.(T), at Texas State University, along with Megan Trad, Ph.D., M.S.R.S., R.T.(T) and Kenneth Scott Smith, Ph.D., LCSW.

“Evaluation of Common Orthopedic Implants at 7 Tesla” in the amount of \$5,948.80, to David Pennell, M.S., R.T.(MR), CNMT, at the Vanderbilt University School of Medicine, along with Adrienne N. Dula, Ph.D.; Frank G. Shellock, Ph.D.; and Kurt P. Spindler, M.D.

“Reducing Occupational Stress in the Radiology Department” in the amount of \$2,966, to Lynn Reingold, M.S.R.S., R.T.(R)(CT), at Weber University, along with Daniel Bride, B.S.

THANK YOU TO THE 2014 RESEARCH GRANTS ADVISORY PANEL

Vice Chair, Nina Kowalczyk, Ph.D., R.T.(R)(QM)(CT), FASRT, of Ohio
Tanya M. Custer, M.S., R.T.(R)(T), of Nebraska
Gregory J. Ferenchak, Ed.D., R.T.(R)(QM), of Florida
Shelley Giordano, D.H.Sc., R.T.(R)(MR), of Connecticut
Jeffrey S. Legg, Ph.D., R.T.(R)(CT)(QM), of Virginia
Tricia D. Leggett, D.H.Ed., R.T.(R)(QM), of Ohio
Ex officio, John Culbertson, of ASRT staff
Ex officio, Michael Jennings, of ASRT staff
Board of Trustees Liaison, Steven Hardy, M.S., R.T.(R)(T)(CT), CMD, of California

► Professional Research Grant Recipient

— **Ronnie G. Lozano**,
Chair and Associate Professor of the Radiation Therapy Program at Texas State University and Chair of the Texas State Cancer Advocacy Movement for Colleges and Outreach

“My project was based on the need for an innovative virtual teaching technology with proven effectiveness, yet affordable. It is a multi-year, collaborative project that includes partners outside of radiation therapy. Although not complete, the Radiation Therapy Program and the Texas State Virtual Lab have developed the basic elements of a treatment simulation system by means of combining existing physical resources (the lab and projection system) and small grant awards to develop software applications. The support from the ASRT Foundation was combined with other awards, allowing me to develop the initial platform of this system. It is important to emphasize the impact of what I consider a ‘seed grant’ from my professional organization. In contrast to grants I applied for outside of our profession, **your support conveyed both confidence and trust from a group whose background understands the language, concepts and goals within the discipline of the radiologic sciences.** I appreciate the confidence and trust that the ASRT has in me. I look forward to my continued work with the ASRT to improve affordable teaching technology for the radiologic sciences.”

International Speakers Exchange Award

▶ International Speakers Exchange Recipient

— **Joy Cook**,
Clinical Assistant Professor and Clinical Coordinator at the Radiologic and Imaging Sciences Program, University of Southern Indiana

Joy Cook, M.S., R.T.(R)(CT)(MR), presented “Magnetic Resonance Imaging and Thermal Injury” at the 2014 United Kingdom Radiological Congress in Manchester, England.

Jennifer Yates, Ed.D., R.T.(R)(M)(BD),CRT, presented “Developing Complex Problem Solving Skills in Radiologic Science” at the 72nd Canadian Association of Medical Radiation Technologists Annual General Conference, Alberta, Canada.

**Thank you to Elekta Inc. which sponsored this program in 2014.*

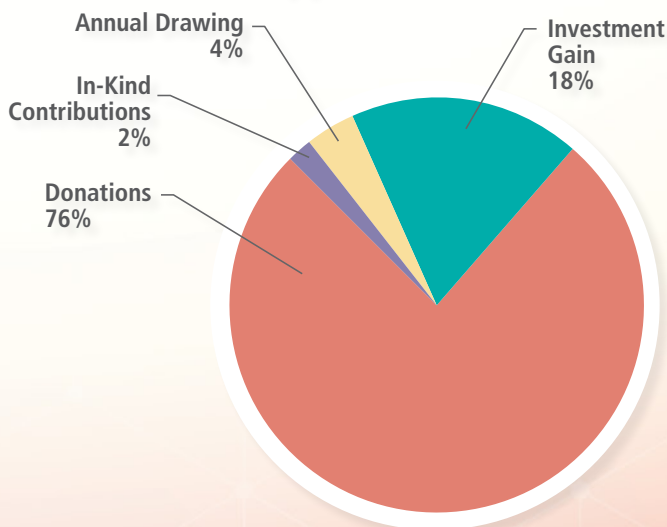

I have nothing but great things to say about the entire experience, including the organization of my trip and my speaking events. I personally met with many individuals who received my presentations and were very happy with my lectures. I had the opportunity to meet many fascinating people and created a long list of important international contacts! I am very humbled to have been chosen for the event. **I was delighted to have provided a different perspective on radiology education** and to present my insight on MR and thermal injuries.

THANK YOU TO THE 2014 ISEA REVIEW COMMITTEE

Support and Revenues

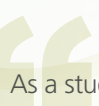

Program Expenses

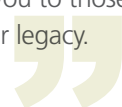

Individual Donors

— **Megan Trad, Ph.D.,
M.S.R.S., R.T.(T)**,
Assistant Professor,
Texas State University
Radiation Therapy Program
Colleges and Outreach

As a student, I was exceptionally fortunate to receive two scholarships from the ASRT Foundation. I didn't know it would have this effect on me, but knowing that others donated money for me to be able to go to school was incredibly motivating. I worked and studied as hard as I could because I didn't want to let down the people who believed in me. I graduated in 2012, and now I'm happy to be teaching. I see first-hand how many of my students are struggling financially. Now that I'm in a position where I can pay it forward and help other students, **I really feel it is my responsibility to continue the generosity of the donors who came before me.** Thank you to those who believed in me as a student: I want to carry on your legacy.

Major Gifts

- Philip Ballinger, Columbus, Ohio*
- Elaine Chin, Escondido, California*
- Steven Hardy, San Diego, California*
- James and Stephanie Johnston, Holiday, Texas*
- Richard Kay, Albany, Oregon*

Corporate Donors

— **Robin Hillman, M.H.A., R.T.(R)(M),**
Vice President of Clinical Services at Hologic

Hybrid equipment and technology are advancing more quickly than our ability to educate technologists. I've seen that first-hand as vice president of global clinical services for the Hologic's Breast & Skeletal Health Solutions. For the past two years, the ASRT Foundation's Health Care Industry Advisory Council has worked **to identify issues associated with hybrid technology, such as PET-MR, and is sharing information with important constituents**, including organizations that certify radiologic technologists. The need for technologists certified in multiple modalities continues to increase.
